

Presents, Stephen Ashkin, "is often thought of as the Father of Green Cleaning".

He is a 29 year industry veteran and has focused on Green Cleaning since 1990. His recent accomplishments include co-chairing a US EPA Work Group on "ecolabels", co-authoring *The Business of Green Cleaning* for the IFMA Foundation, serving on the "core committee" for the US Green Building Council's *LEED for Existing Buildings Rating System* and developing State legislation on Green Cleaning in schools.

Chairman of the Task Force which wrote the National cleaning standard -- *Standard Guide on Stewardship for Cleaning Commercial & Institutional Buildings (ASTM E 1971)* and introduced the concept of "green" cleaning into the commercial cleaning industry.

Writes a monthly "the Green Scene" article for the Executive Housekeeping Today magazine.

Two Green Cleaning Workshops, that will be held on:

Thursday, March 4, 2010 at 9:00 am – 1:00 pm

Friday, March 5, 2010 at 9:00 am – 1:00 pm

Location: Ala Moana Shopping Center

<p>Cost per workshop @ \$95.00 per person IEHA CEU Credits of 4.0</p>

The workshops held on two separate days will cover the topics of:

- **Defining Green, Green Cleaning and Sustainability**
- **A quick review of the various "roadmaps" including the US Green Building Council's LEED for Existing Buildings Rating System**
- **Conducting a Green Cleaning assessment audit leading to a plan of action**
- **Identify all of the appropriate products, training and other requirements for a comprehensive Green Cleaning Program**
- **Implementation strategies**
- **Q&A**
